

/* Reflection

Name: Joe Bloggs

Student Number: 007

Part A - Mark (7/9)

- **Comments** (1/1) - On multiple lines (e.g., 3, 6, 9, 12, 18, 28, 44, etc.).
- **Indented/Formatted** (1/1) - Code follows clear structure.
- **Naming** (1/1) - Meaningful variable names like `flappyX`, `flappyY`, `obstacleDisplacement`.
- **Inclusion of Readme** (1/1) - Present.
- **Inclusion of completed Reflection** (3/5) - Needs more depth in some explanations.

Part B - Mark (6/6)

- **Sizing** (1/1) - Defined in `settings()` at line 52.
- **draw() function** (3/3) - line 59 and actively used.
- **setup() function** (2/2) - line 52, initializes game settings.

Part C - Mark (9/10)

- **Use of if statements** - lines 30, 60, 74, 76, 95, 104, etc.
- **Nested if statements** - 202, 215.

Part D - Mark (18/20)

- **Loop using for** - line 46.
- **Nested loops** - lines 233, 257.
- **Loop using while** - line 294.

Part E - Mark (18/20)

- **Method 1 (No parameters)** - `setup()` at line 52.
- **Method 2 (Return value)** - line 73.
- **Method 3 (Multiple parameters)** - Example at line 103.

Part F - Mark (9/10)

-
- **Processing function 1** - `size()` at line 21.
 - **Processing function 2** - `random()` at line 109.
 - **Processing function 3** - `background()` at line 120.

Part G - Mark (6/10)

- **Mouse function** - `mousePressed()` at line 83.

Part H - Mark (8/10)

- **String function 1** - `.length()` at line 137.
- **String function 2** - `.substring()` at line 263.

Part I - Mark (4/5)

- Game mechanics well implemented with strong structure.

Overall Mark (85/100)

Summing: $7 + 6 + 9 + 18 + 18 + 9 + 6 + 8 + 4 = 85$

Final Adjustments: This will be multiplied by **complexity (9/10)** and **interview score (TBD)**. */
